- Shock Proof** (Icon: lightning bolt)
- Ultra-tough High Density Tempered Glass** (Icon: hammer on glass)
- Oleophobic Coating** (Icon: water droplets on glass)
- Five Times Stronger** (Icon: rhinoceros head)
- Hardness of 8-9H** (Icon: circular saw blade)
- Ultra-thin 0.4mm** (Icon: thin glass slice)
- Anti-Scratch** (Icon: hammer and nail)
- 5 Times Stronger than regular glass** (Icon: lightning bolt)
- Anti-shatter Silicon Film** (Icon: cracked glass)
- Anti-Fingerprint** (Icon: fingerprint)
- Self-absorbed Adhesive** (Icon: adhesive strip)
- Protective Shield** (Icon: shield)
- Enhances color & Protects Eyesight** (Icon: eye)

primeShield.iPm is an ultra-tough high density tempered glass screen protector for iPad mini. Primeshield.iPm is constructed using an innovative scratch resistant tempered glass material which is five times stronger than regular glass and can resist scratches even from knives and keys. The rounded edges offer a more precise fit to your iPad mini. The self-absorbed adhesive side of primeShield.iPm is coated with an anti-shatter silicon film that ensures protection to your device even if the glass shatters and also assists in easy installation of the screen protector. This screen protector is 0.4mm thick coupled with an oleophobic coating that provides premium protection from smudges and fingerprints with no loss in touch screen sensitivity. primeShield.iPm is made of an optical graded PET film that enhances colour and provides a sharper view. The optical graded PET film has a higher light transmittance than normal grade PET film and thus provides protection from eye fatigue due to extensive and continuous use of your iPad mini. Promate primeShield.iPm is an obvious choice when it comes to optimum screen protection.

### Features

- Ultra-tough high density tempered glass screen protector for iPad mini
- The surface has a hardness of 8-9H, five times stronger than regular glass. Even sharp objects such as knives and keys can't scratch it
- Self-absorbed adhesive ensures easy installation without any bubble formation
- Anti-shatter silicon film provides protection if the glass screen shatters
- Ultra-thin 0.4mm thickness ensures there is no loss in touch sensitivity
- Oleophobic coating keeps the screen free from smudges and fingerprints
- Optical graded PET film enhances the colour and protects your eyes
- Made of high quality Dragontrail standard glass
- Precision-Cut to ensure it offers a perfect fit for your iPad mini
